

# HERBSTER ANGUS FARMS

## Supplement Sheet 2022 Bull and Female Sale

Updated EPDs for CE, BW, WW, YW, Milk, CW, MRB, RE, \$W, \$F, \$B, and \$C are shown below. The Simmental bulls also have updated numbers including API and TI. In the right column of the table are the actual measurements for scrotal circumference taken on March 07, 2022. Updated EPDs on the open registered heifer division are included. All EPDs are current as of April 1, 2022. Spring yearling weights and ultrasound measurements were taken on February 21, 2022.

The bulls have been tested free of Johne's, Trich, and BVD. The open heifers have been Bangs vaccinated, Johne's tested, and have also had one round of PregGuard. All cattle have been wormed and lice poured. The cattle have been fed Fastrack® through all life stages to support gut function.

**Lots 9, 10, 20, 28, 37, 43, and 68 are OUT OF THE SALE.**
